## **MKS Instruments to Participate in 7th Annual CEO Investor Summit 2015**

### **Investor Event Held Concurrently With SEMICON West in San Francisco**

ANDOVER, Mass., June 23, 2015 (GLOBE NEWSWIRE) -- MKS Instruments, Inc. (Nasdaq:MKSI), a global provider of technologies that enable advanced processes and improve productivity, today announced that the company's management will participate in the 7<sup>th</sup> Annual CEO Investor Summit 2015, being held on Wednesday, July 15, 2015 in San Francisco, California.

#### **About The 7th Annual CEO Summit**

The CEO Summit is an accredited investor and publishing research analyst event that is held concurrently with SEMICON West and Intersolar 2015 in San Francisco. The event is hosted by executive management from participating companies and features "round-robin" format consisting of small group meetings, each 30 minutes in duration.

The CEO Investor Summit is by invitation only and is open to accredited investors and publishing research analysts. As space is limited, please RSVP early. Hosts reserve the right to limit attendance as necessary. Last day for registration is July 3, 2015.

While held concurrently with SEMICON West and Intersolar 2015, the event is not affiliated with the show.

#### **RSVP Contacts for 7th Annual CEO Summit 2015**

To RSVP for the CEO Summit, please contact either of the Summit's co-chairs.

#### **About MKS Instruments**

MKS Instruments, Inc. is a global provider of instruments, subsystems and process control solutions that measure, control, power, monitor and analyze critical parameters of advanced manufacturing processes to improve process performance and productivity. Our products are derived from our core competencies in pressure measurement and control, materials delivery, gas composition analysis, control and information technology, power and reactive gas generation, and vacuum technology. Our primary served markets are manufacturers of capital equipment for semiconductor devices, and for other thin film applications including flat panel displays, solar cells, light emitting diodes, data storage media, and other advanced coatings. We also leverage our technology in other markets with advanced manufacturing applications including medical equipment, pharmaceutical manufacturing, energy generation, and environmental monitoring.
